

LYON 1 IN FIGURES

Claude Bernard Lyon 1 University

A university specialising in science, technology, health and sport, Lyon 1 provides its students with high-quality education hinged around its research excellence. Interdisciplinary and focusing on the major challenges facing society today, research at Lyon 1 drives scientific progress locally and internationally. In the technological and industrial sectors, as well as in terms of the teaching methods employed, Lyon 1 is also an innovative university located at the heart of an attractive environment: a region at the crossroads of Europe, an outstanding city, a campus that provides a full programme of sports and cultural activities. In this rare context, the University promotes the development of the values that make up its DNA - equality, diversity and solidarity - and is committed to support, creation and sharing with respect to everyone within its community.
