REVIEW OF THE **VARIOUS EXCHANGE PROGRAMMES** WITH LYON 1

- Erasmus+ agreements (see pages 11 to 14)
- Cooperation agreements (see pages 11, 15, 16)
- International partnership education (see page 17)
- Specific agreements

Review of specific programmes

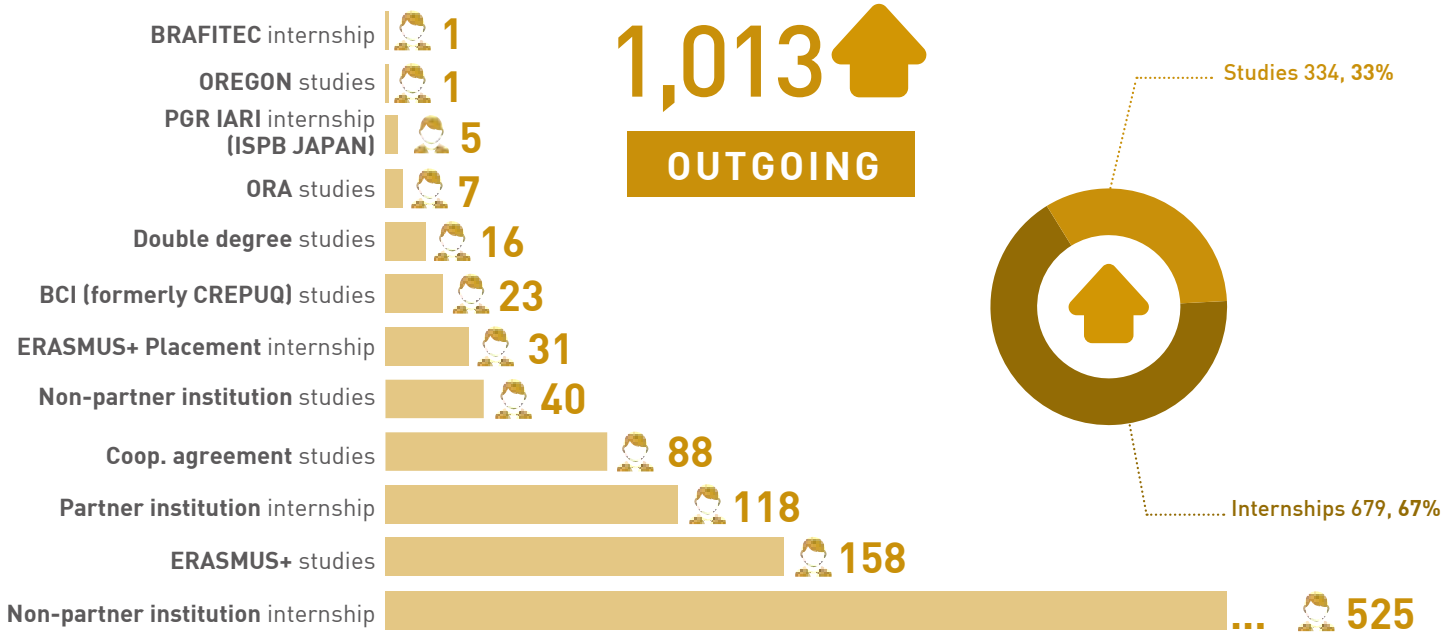

Bureau de Coopération Interuniversitaire (BCI): This exchange programme connects **11 Quebec universities** with several French universities. This programme does not apply to the healthcare sector.
Ontario-Rhône-Alpes programme (ORA): This exchange programme is between **14 universities in Ontario** (Canada) and 12 higher education establishments in the Auvergne-Rhône-Alpes region.
Oregon: This exchange programme connects **6 universities in Oregon** (USA) with 5 establishments in Lyon. It does not apply to the healthcare sector.
Sciences Without Borders: This programme managed by Campus France aims to educate Brazilian students and researchers in France in the physical sciences, engineering sciences (BRAFITEC), environment and cultural industries fields.
MALAYSIA programme: (incoming only): managed by Campus France, it primarily concerns the fields of mechanical, electrical and chemical engineering, and is an IUT-level programme that provides access to the Bachelor and Master level or to engineering schools for high-performing students, selected and funded by the Malaysian government.
IARI programme: (International Alliance Research Internship), programme coordinated with the University of Lyon (UdL), seeking to foster student exchanges for research internships between UCBL, ENS and the Graduate School of Frontier Sciences at the University of Tokyo, in particular in the fields of Oncology and Bioscience at Lyon1.
SIRI programme: internship programme created in 2012 to receive students from the University of Ottawa for research internships (undergraduate). Co-managed by the University of Lyon, it partially funds these students for their internship in Lyon laboratories for a three-month period from May to July.

REVIEW OF THE **VARIOUS GRANTS**

Erasmus+ grant

This grant is paid to all students participating in an Erasmus exchange programme.

MENESR-AMI (French Ministry for Education, Higher Education and Research - International Mobility Assistance)

Restricted to students qualifying for grants based on CROUS economic criteria, in undergraduate, graduate or PhD studies and a DUETI.

Auvergne Rhône-Alpes region grants and subsidies:

- Explo'RA Sup: eligible students are enrolled in a higher education establishment in the region that awards degrees of at least Level 3, certified by the French government.

- CMIRA calls for projects (Auvergne-Rhône-Alpes Cooperation and International Mobility)

Explora Pro: available to a researcher, post-PhD student or faculty member, in the framework of a joint research-education or research initiative sponsored by a higher education and research establishment or COMUE in the Auvergne-Rhône-Alpes region.

Accueil Pro: available to a foreign researcher, post-PhD student or faculty member, coming for a joint research-education or research initiative sponsored by a higher education and research establishment or COMUE in the Auvergne-Rhône-Alpes region.

Coopera: Coopera promotes structural academic and scientific collaboration by funding cooperative projects. The establishments eligible for this project are all Rhône-Alpes higher education and research establishments.

Accueil Doc: available to any foreign PhD student in the framework of a joint research-education or research initiative sponsored by a higher education and research establishment or COMUE in the Auvergne-Rhône-Alpes region.

Explora Doc: any PhD student receives this funding if they go abroad in the framework of a joint research-education or research initiative sponsored by a higher education and research establishment or COMUE in the Auvergne-Rhône-Alpes region.

Accueil Sup: foreign students can receive this grant if they come in the framework of a university cooperative programme and are enrolled in a Master 2 level course in a university or Grande École in the Auvergne-Rhône-Alpes region.

UCBL – COM (Objectives and Resources Contract): funds the International Relations Allocation for students with no other source of funding.

Language courses:
The SCEL (Joint Language Instruction Office) administers TOEIC certifications (required for M2) and FLE courses (French as a Foreign Language) for foreign students.
The DRI offers preparatory course for the TOEFL in collaboration with the SCEL for students with an approved mobility plan. The IUT serves as the TOEFL examination centre.

STUDY PROGRAMMES IN INTERNATIONAL PARTNERSHIP

29 DEGREES UNDER **INTERNATIONAL PARTNERSHIP**

4 DELOCALISED DEGREES

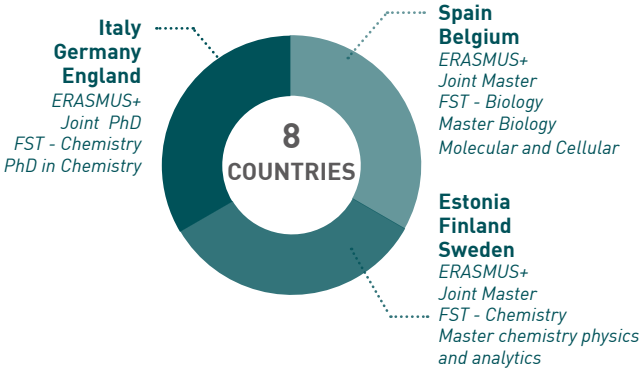

These study programmes involve only the Lyon 1 degree earned abroad at the partner's institution. It delivers only one degree to students.

22 DOUBLE DEGREES

These courses lead to a degree from Lyon 1 and a foreign degree, and enable students to obtain two degrees at the end of the course. These courses are structured around the mobility of students in each of the countries **(double degree)** or by earning the Lyon 1 degree abroad together with a local degree **(two-degree joint programme)**.

3 JOINT DEGREE PROGRAMMES

Erasmus+, Erasmus Mundus course

This European Union programme supports existing study programmes at master level (action 1 A) and PhD level (action 1 B), integrated courses of very high academic quality, offered by consortia of higher education establishments from at least three European countries and possibly other countries, and leading to study, teaching and research grants. It leads to the delivery of a joint degree, at least double or multiple, recognised by the competent authorities of the relevant countries.

STUDY PROGRAMMES IN ENGLISH

3 DEGREE LEVELS / 28 AREAS OF STUDY / 45 SPECIFIC COURSES, ENTIRELY OR PARTIALLY TAUGHT IN ENGLISH

DEGREES	GENERAL AREA OF STUDY	SPECIFIC COURSE
1 UNIVERSITY DEGREE HEALTHCARE	DU Healthcare	Medical English
1 UNIVERSITY DEGREE SCIENCE AND TECHNOLOGIES	DU Science and technologies	Marketing and management in an international context
1 BACHELOR'S DEGREE	Physics	Physics
5 PROFESSIONAL BACHELOR'S DEGREE	Synthetic chemistry	International fine organic synthesis
	Marketing of products and services	Technical marketing of industrial products and services
	Maintenance and technology: multi-technology systems	Engineering and maintenance of pump systems
	International commerce professions	International purchasing and sales
	Animal productions	Technology in physiology and physiopathology
20 MASTER'S DEGREES	Acoustics	Acoustics - International course
	Biodiversity, ecology and evolution	Bioevaluation of ecosystems and biodiversity assessment
	Biology	Biosciences and healthcare
		Biosciences and modelling of complex systems
		Biosciences
		Teaching Study Programme, Agrégation in SV-STU and Professional Development
	Integrative biology and physiology	Physiology and muscular pathologies
	Molecular and cellular biology	Leading international vaccinology education (ERASMUS+)
		Cellular genetics and pathology
		Applied infectiology
	Biotechnology - Pharmacology	Plant biotechnologies
		Medical biotechnologies
		Development of active molecules
	Cancer	Biology of cancer
		Therapeutic innovation in oncology
	Chemistry	Synthesis, catalysis and sustainable chemistry
	Physical and analytical chemistry	Physico-chemical analyses
	Electronics, electrical energy, automation	Electronics and onboarded systems
	Energy	Advanced manufacturing and monitoring of energy delivery
	Informatics	Artificial intelligence
	Healthcare engineering	Clinical evaluation
	Nanosciences and nanotechnologies	Nanoscale engineering
		Research engineer in nanotechnologies
	Neurosciences	Fundamental and clinical neurosciences
		Neurophysiology of perception and sensory evaluation
	Physics	Astrophysics
		Subatomic physics
		Atomic, molecular, condensed material and optical physics
		Design, instrumental development, measurement
		Synthesis, ageing and characterisation of nuclear materials
	Oceanic, atmospheric and climate sciences	Climate
		Air quality
	Material sciences	Science and innovation
	Earth and planetary sciences, environment	Earth and planets
		Paleontology, sedimentology and paleoenvironments
	Medication sciences	Pharmaceutical innovations and analytical development
		Therapeutic targeting and epithelium
